Features

Fast, efficient, easy to use - with a unique security code that makes signing documents effortless. Verified digital signature with top level security to minimise the risk of signature fraud. Authenticated signatures should be an integral part of your cyber security strategy. In fact, Electronic signatures are more efficient than printing, signing and scanning documents – and they're safer than a hand-written signature! Esignatures can't be forged like hand-written ones and have a high level of encrypted security. The process takes seconds on a desktop or mobile phone and saves you heaps of time.

There are great programs that offer more functions than the average bookkeeper or accountant needs and are very costly, but Govreports offering a cost-effective program that makes workflow for accounting professionals easy to organize and implement. Track your lodgement history and view outstanding reports from your dashboard
